**Current occupation:** Freelancer

**Biography:**

My name is Keba and I was born in Groningen. Coming from a very creative family, I've been in touch with the creative- and music scene, since I was a young boy. My mom being a visual artist and my dad playing percussion I've always had an interest in pursuing creative work. I enjoy drawing and illustration, but most of all being able to work together with others, to collaborate, create new ideas and learn from each other. Which is also why I work for a foundation that develops cultural programs and moves freely between art and politics. Other than that I love listening to all kinds of music, for each mood there's a song! And with music comes movement, which is something that I've always felt comfortable with and I'm happy I'm able to use in modelling as well as bouldering and doing yoga.

**Talents:**
