Biography:

Rowan van den Boomen is an artist based in the Netherlands. He is now in the first year of his dance study at the expended contemporary dance department at AHK academy for theatre and dance. Besides dance Rowan also has more interests in fashion and making art in the form of painting and graffiti.

I like to express myself in many different ways. I am not fulfilled by only a physical expression like dance. That's why I love to also keep myself busy with things like making art and fashion and skateboarding. Trying to get the full potential out of myself and be as free as I can be, to be a radiant soul.
