**Biography:**

Filippo Gualandris is an Italian artist based in The Netherlands. After graduating from Codarts University of the Arts in 2022, he is now mainly working as a freelance dancer. When not working with dance, he is exploring different possibilities of expression that integrate movement art with other personal interests, such as film and sound.

Filippo finds inspiration in the simplicity of life while having a walk, reading, enjoying a nice meal, and interacting with people. He believes there is always just the right tune for any moment and if music is the soundtrack of his life, the playlist covers a wide range of moods but is often pretty funky.
